ABOUT ME

I'm Hariharan C.V., currently pursuing a Bachelor of Engineering in Computer Science and Engineering at Chennai Institute of Technology. I'm passionate about technology, data, and AI, and I'm actively building my skills in probability, statistics, and computer science fundamentals. I'm curious, driven, and always eager to learn and grow in both academic and practical settings.

EXPERIENCE

Chennai Institute of Technology – Business Incubation Forum (CITBIF)

Duration: 8 weeks MAY-JUNE (2025)

ROLE: Backend Developer Intern – CITBIF

Developed and integrated user activity tracking (views and confirmations) in a Competition and Event Management Tool using Express.js and MongoDB. Ensured clean API structure and seamless frontend-backend integration for real-time updates.

FREELANCE PROJECTS

Competition and Event Management Tool — Backend Developer

Worked on a web-based application used to create, manage, and track college-level competitions and events. Built backend features for tracking user views and confirmations using Express.js and MongoDB. Designed clean, scalable APIs and ensured seamless integration with the frontend for real-time updates.
